Opening New Opportunities for Collegiate Athletes:

by LTC Hector R. Morales, Head Coach, West Point Judo

The U.S. Military Academy had the privilege to host the 2011 National Collegiate Judo Association Championships. One hundred and thirty seven novice and advanced Judo athletes representing 33 different colleges and universities attended this year's event. With the support of USA Judo, this event brought back the "E" level status for the 1st and 2nd place divisions of the advanced and it attracted higher level caliber collegiate athletes. Athletes who won this event, will also be provided with the opportunity to participate at the World University Judo Championships in China later this year. The event was a success overall and coaches and athletes had an enjoyable time at the Nation's Academy. Below are the results from the tournament.
